

Pool Perfect® + Phosfree® Instructions

Directions for use:

This product is designed for use in properly balanced pool water.

1. Shake the bottle well as contents may settle.
2. Each week, add 1 capful per 8,000 gallons of water down the skimmer with the circulation system running.
3. Proceed with regular pool operation.

Note: Sanitizer level should be below 5ppm before adding this product.
